# **SITUATION SUMMARY**

## **2017 Statewide Winter Storms**

### **Cal OES Coastal Region**

#### **Paul's Slide, State Route 1, Monterey County**

Per Cal OES Coastal Duty Officer (CDO), as of 1300 hours on 05/25/17, Paul's Slide on State Route 1 has been closed to all traffic.

- Caltrans engineers report slide activity and the area has been closed in the interest of public safety.
- Assessment will commence and further details will be provided once released.

#### **Mud Creek Slide, State Route 1, Monterey County**

The Mud Creek area on State Route 1 sustained a major slide on the evening of 05/20/17, when over a million tons of rock and dirt fell down the slope continuing down to the ocean floor 250 feet off the shoreline.

- The Mud Creek area is ¼ mile in length, made up of five slides, four of which fell during this single incident and consolidated into one slide. The remaining slide now extends 1,500 feet in length over State Route 1 and is about 35 to 40 feet deep.
- Roadwork at Mud Creek was suspended and heavy equipment removed due to the threat of new slides and for safety of highway workers. Caltrans geologists and engineers plan to assess it further when this area stabilizes.
- [Estimated opening date is 06/01/18.](#)

#### **Pfeiffer Bridge Incident, Monterey County**

California Highway Patrol (CHP) and Caltrans had a hard closure on the Pfeiffer Bridge on HWY 1 at mile marker 45.52 (SB Sycamore Canyon and the Bridge) due to a crack in the bridge. The bridge has been demolished so the road is closed and estimates for some access from the north is late September 2017.

- Backup air medical transport plans have been developed for medical emergencies through Cal OES Law Enforcement Branch.
- All businesses north of the Pfeiffer Canyon Bridge closure are open to the public.
- Caltrans will continue the process of delivering construction materials and equipment to the site of the demolished bridge on HWY 1 via Nacimiento-Fergusson Road from Hwy 101 on Thursday, 06/15/17.
- Some equipment will begin moving out one piece at a time throughout the week. These convoys of equipment will be escorted by CHP.

# **SITUATION SUMMARY**

## **2017 Statewide Winter Storms**

### **Cal OES Inland Region**

**River Forecast - The following rivers are forecast to meet or exceed Monitor Stage:**

- Placer County: Truckee River at Truckee
- Alpine County: East Fork Carson River at Markleeville

**Please see link for River Forecast Guidance - <http://www.cnrfc.noaa.gov/>**

### **Cal OES Southern Region**

**River Forecast - The following river is forecast to meet or exceed Monitor Stage:**

- Mono County: West Walker River at Highway 395 below Little Walker

**Please see link for River Forecast Guidance - <http://www.cnrfc.noaa.gov/>**

# WEATHER OF CONCERN

## Weather of Concern

- Unseasonably cool conditions will persist today. Temperatures then warm slightly to near average on Tuesday with a more robust warming trend through late week. By Thursday, afternoon temperatures will rebound above seasonal averages, especially for inland areas away from the immediate coastline throughout the state.

# **WEATHER SYNOPSIS BY REGION**

## **NORTHERN CALIFORNIA**

Hot and Dry with North Winds This Upcoming Weekend

The low pressure that has produced the cool, wet, unsettled weather throughout Northern California is now over Nevada. Areas from the Sacramento Valley to the coast will begin a clearing, drying, and warming trend today as a drier NW flow aloft moves overhead. Scattered showers and thunderstorms will continue in the northeastern and eastern areas through this evening. The drying and warming trend will spread to all areas on Tuesday. Temperatures will warm to near normal on Wednesday. Building high pressure will push temperatures to 10 degrees above normal by Friday, and 15 or more degrees above normal from Sunday well into the following week. N-NE/Offshore winds will enhance the hot and dry conditions from the western Sierra slopes to the coast beginning Saturday, with peak gusts reaching 20-30 mph in wind-prone areas by Sunday. Poor relative humidity (RH) recovery can be expected beginning this upcoming weekend, with minimum afternoon RH 8-15% in these areas.

## **SOUTHERN CALIFORNIA**

Hot and very dry Thursday through early next week

The deep area of low pressure that was over Northern California yesterday is now over Nevada and will move off to the northeast the next couple of days. Scattered showers will end across the Central and Eastern Sierra this afternoon as the low moves away from the area. Westerly winds will be much lighter across the mountains and deserts today, with winds 15 to 25 mph with gusts to 40 mph. Temperatures will warm to a little below normal today, with mid 50s to mid 60s across the mountains and 70s to low 80s in the valleys. Minimum humidity will remain above 30% away from the deserts today. A ridge of high pressure will build into California from the south causing temperatures to warm around 10 degrees away from the coastal areas both Tuesday and Wednesday. Minimum humidity will drop into the teens and twenties away from the coastal areas Tuesday and Wednesday. Slow warming along with minimum humidity in the single digits and teens will occur away from the coast Thursday through early next week as the ridge continues to strengthen. Temperatures will reach 100 degrees across the warmer valleys starting Thursday and then be above the century mark Friday through early next week. Winds will be light Tuesday through early next week.

# Cal OES LAW ENFORCEMENT MISSIONS

## New Cal OES Missions

- **2017-LAW-36349, 6/10/17, 0100 hours**, Air Force Rescue Coordination Center (AFRCC) reported an ALNOT for a missing/overdue aircraft, a Beech, six seater. It is believed only the pilot was aboard. The aircraft was seen departing Del Mar Farms Airport in Stanislaus County around 1400 hours enroute to Columbia airport in Tuolumne County. There was a delay in the reporting as the pilot did not file a flight plan. Ramp checks were completed at both airports with negative results. The pilot had personal vehicles at each airport and they were located during the ramp checks. AFRCC activated Civil Air Patrol (CAP) (National Team) and start Cell & Radar Forensics. They will also call California Wing of CAP and assign an Incident Commander. **Update: 0135 hours**, AFRCC looking for air assets to fly mission. **Update: 0230 hours**, AFRCC provided the radar forensics report which shows the aircraft's last known position (LKP) as North of the Town of Fort Jones, JNO Swiss Ranch Rd., in Calaveras County approx. 18.5 miles North of the destination airport. It revealed a sudden and sharp decrease in altitude and airspeed. **Update: 0251 hours**, LDO briefed Calaveras County SO and shared the radar forensics report. They are putting together a ground team for first light. **Update: 0436 hours**, Spoke with California Wing CAP IC who advised they have an aircraft departing soon and will try to locate an ELT signal. The IC is going to brief Calaveras SO on their activity. **Update: 0817 hours**, CAP's first aircraft has completed it's search and a second is now over the search area. Calaveras SO SAR is putting a ground team together. CHP is also assisting. **Update: 6/11/17** Both ground and air searching concluded Saturday evening without locating aircraft. CAP is resuming their air search this morning, 06/11/17. Calaveras SO SAR will also resume ground searching this morning utilizing SAR teams from Tuolumne and Amador Counties. **Mission Ongoing.**
- **2017-LAW-36305, 6/08/17, 2305 hours**, The El Dorado County Sheriff's Office (EDSO) and the US Coast Guard (USCG) Station Lake Tahoe are working a joint search and rescue (SAR) for a missing Vietnamese male in his 40's who disappeared while kayaking earlier Thursday. The USCG, who is handling the air support side, made a request for an HH-60 out of NAS through the Air Force Rescue Coordination Center (AFRCC), which was approved. The Fallon airship will supplement a fixed wing out of USCG Sacramento and a local CHP helo. EDSO continues searching with ground and marine teams. **Update: 6/9/17, 1500 hours**, EDSO advised weather conditions have deteriorated; air and marine assets have been recalled due to unsafe search conditions. Mission suspended until weather conditions improve. **Update: 6/11/17, 0600 hours**, Per USCG Station Lake Tahoe, both air and water searching are suspended again today due to high winds. El Dorado SO SAR will be utilizing K9s to search on land today beginning at 0900 hours **Mission Ongoing.**

# **Cal OES MISSIONS**

## **Cal OES Missions**

- **2017-SOC-34379:** Technical specialist for spillway floor inspections at Oroville Dam, Butte OA – Demobilizing
- **2017-Cal OES-35819:** Twelve Caltrans engineers requested to conduct damage and site inspections throughout the state for impacts related to 2017 February Winter Storms. The lead engineer will report to the Joint Field Office to coordinate the response.

## **Presidential Declaration Storms – FEMA-4301-DR-CA & FEMA-4305-DR-CA**

- Preliminary Damage Assessments are complete for counties named under Presidential Declaration FEMA-4301-DR-CA and FEMA-4305-DR-CA: Alameda, Amador, Butte, Calaveras, Contra Costa, El Dorado, Humboldt, Inyo, Kern, Lake, Lassen, Los Angeles, Marin, Mendocino, Merced, Mono, Monterey, Napa, Nevada, Orange, Placer, Plumas, Riverside, Sacramento, San Benito, San Diego, San Luis Obispo, San Mateo, Santa Barbara, Santa Clara, Santa Cruz, Shasta, Sierra, Siskiyou, Solano, Sonoma, Sutter, Trinity, Tuolumne, Yolo, Yuba

## **Presidential Major Disaster Declaration - FEMA-4308-DR-CA**

- Assistance for emergency work and the repair or replacement of disaster-damaged facilities: Alameda, Alpine, Amador, Butte, Calaveras, Colusa, Contra Costa, Del Norte, El Dorado, Glenn, Humboldt, Kings, Lake, Lassen, Marin, Mariposa, Merced, Modoc, Monterey, Napa, Nevada, Plumas, Sacramento, San Benito, San Joaquin, San Luis Obispo, San Mateo, Santa Barbara, Santa Clara, Santa Cruz, Shasta, Sierra, Siskiyou, Solano, Sonoma, Stanislaus, Sutter, Tehama, Trinity, Tuolumne, Yolo, and Yuba Counties.
